Display

Super Retina XDR display

6.1-inch (diagonal) all-screen OLED display
2556-by-1179-pixel resolution at 460 ppi

The iPhone 15 display has rounded corners that follow a beautiful curved design, and these corners are within a standard rectangle. When measured as a standard rectangular shape, the screen is 6.12 inches diagonally (actual viewable area is less).

Super Retina XDR display

6.7-inch (diagonal) all-screen OLED display
2796-by-1290-pixel resolution at 460 ppi

The iPhone 15 Plus display has rounded corners that follow a beautiful curved design, and these corners are within a standard rectangle. When measured as a standard rectangular shape, the screen is 6.69 inches diagonally (actual viewable area is less).

Both models

Dynamic Island

HDR display

True Tone

Wide color (P3)

Haptic Touch

2,000,000:1 contrast ratio (typical)

1000 nits max brightness (typical); 1600 nits peak brightness (HDR); 2000 nits peak brightness (outdoor)

Fingerprint-resistant oleophobic coating

Support for display of multiple languages and characters simultaneously

Splash, Water, and Dust Resistant³

Rated IP68 (maximum depth of 6 meters up to 30 minutes) under IEC standard 60529

Chip

A16 Bionic chip

6-core CPU with 2 performance and 4 efficiency cores

5-core GPU

16-core Neural Engine

Camera

Advanced dual-camera system

48MP Main: 26 mm, f/1.6 aperture, sensor-shift optical image stabilization, 100% Focus Pixels, support for super-high-resolution photos (24MP and 48MP)

12MP Ultra Wide: 13 mm, f/2.4 aperture and 120° field of view

12MP 2x Telephoto (enabled by quad-pixel sensor): 52 mm, f/1.6 aperture, sensor-shift optical image stabilization, 100% Focus Pixels

2x optical zoom in, 2x optical zoom out; 4x optical zoom range

Digital zoom up to 10x

Documentation

iPhone and the Environment

iPhone 15 and iPhone 15 Plus are designed with the following features to reduce their environmental impact:²⁰

[See the iPhone 15 and iPhone 15 Plus Product Environmental Reports >](#)

Progress toward Apple's 2030 carbon neutral goal

- 23% recycled or renewable content²¹
- 25% emissions reduction against baseline²²
- Over 30% of manufacturing electricity is sourced from supplier clean energy projects²³

Made with better materials

- 75% recycled aluminum in the enclosure
- 100% recycled cobalt in the battery²⁴ — a first for Apple
- 100% recycled copper foil in the main logic board and — in a first for Apple — the MagSafe inductive charger
- 100% recycled copper wire and 100% recycled tungsten in the Taptic Engine
- 100% recycled gold in the wire of all cameras, the plating of multiple printed circuit boards, and in the USB-C connector
- 100% recycled rare earth elements in all magnets, representing 100% of the rare earth elements in the device²⁵

Smarter chemistry²⁷

- Arsenic-free glass
- Mercury-, BFR-, PVC-, and beryllium-free

Green manufacturing

- No established final assembly sites generate waste sent to landfill as part of Apple's Zero Waste Program
- All final assembly supplier sites are transitioning to 100% renewable energy for Apple production

Responsible packaging

- 99% or more fiber-based packaging²⁸
- 100% of virgin wood fiber comes from responsibly managed forests²⁹

Apple Trade In

Trade in your eligible device for credit toward your next purchase, or get an Apple Gift Card you can use anytime.³⁰ If your device isn't eligible for credit, we'll recycle it for free.

[See how it works >](#)

Apple and the Environment

We're committed to making our products without taking from the earth, and to

- 100% recycled tin in the solder of multiple printed circuit boards
- 35% or more recycled plastic in multiple components

become carbon neutral across our entire business, including products, by 2030.

[See Apple's commitment >](#)

Energy efficient

- Exceeds U.S. Department of Energy requirements for battery charger systems²⁶

Trade in your smartphone for credit.

With Apple Trade In, you can get credit toward a new iPhone when you trade in an eligible smartphone.³⁰ It's good for you and the planet.

[Contact us >](#)

* To identify your iPhone model number, see support.apple.com/kb/HT3939. For details on 5G and LTE support, contact your carrier and see apple.com/iphone/cellular. Cellular technology support is based on iPhone model number and configuration for GSM networks.

1. Available space is less and varies due to many factors. A standard configuration uses approximately 12GB to 17GB of space, including iOS 17 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can download them back from the App Store. Storage capacity subject to change based on software version, settings, and iPhone model.
2. Size and weight vary by configuration and manufacturing process.
3. iPhone 15 and iPhone 15 Plus are splash, water, and dust resistant and were tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529 (maximum depth of 6 meters up to 30 minutes). Splash, water, and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.
4. To send and receive money with Apple Pay, you must be at least 18 years old and a resident of the United States. If you're under 18 years old in the United States, your family organizer can set up Apple Cash for you as part of Apple Cash Family. Then you can send and receive money with Apple Pay.

Sending and receiving money with Apple Pay and the Apple Cash card are services provided by Green Dot Bank, Member FDIC. Learn more about the [Terms and Conditions](#).

5. Available only in select cities and transit systems. Requires eligible device and OS version. [See here for details](#).
6. If you are a Participant, you are able to spend on the account, but are not responsible for payments. Being a Participant who is reported to the credit bureaus on an account that has a negative payment history (e.g. the account goes past due) or is over utilized can have negative effects on your credit. The account payment history will be reported for Participants who opt in, which could help or hurt a credit score. If you are a Co-Owner, that means joint responsibility for all aspects of the account, including all transactions and payment obligations. In addition, Co-Owners will have full visibility into all account activity and each Co-Owner is responsible for the other Co-Owner's instructions or requests. Being responsible for a Co-Owner involves risk, including credit bureau reporting of any delinquencies on the shared account. Apple Card Family Participants and Co-Owners do not need to have a familial relationship, but must be part of the same Apple Family Sharing Group.
7. Service is included for free for two years with the activation of any iPhone 15 model. Connection and response times vary based on location, site conditions, and other factors. See support.apple.com/kb/HT213885 for more information.
8. iPhone 15 and iPhone 15 Pro can detect a severe car crash and call for help. Requires a cellular connection or Wi-Fi calling.
9. Data plan required. 5G, Gigabit LTE, VoLTE, and Wi-Fi calling are available in select markets and through select carriers. Speeds are based on theoretical throughput and vary based on site conditions and carrier. For details on 5G and LTE support, contact your carrier and see apple.com/iphone/cellular.
10. Ultra Wideband availability varies by region.
11. FaceTime calling requires a FaceTime-enabled device for the caller and recipient and a Wi-Fi connection. Availability over a cellular network depends on carrier policies; data charges may apply.
12. Standard dynamic range video content only.
13. Siri may not be available in all languages or in all areas, and features may vary by area. Internet access required. Cellular data charges may apply.
14. All battery claims depend on network configuration and many other factors; actual results will vary. Battery has limited recharge cycles and may eventually need to be replaced. Battery life and charge cycles vary by use and settings. See apple.com/batteries and apple.com/iphone/battery.html for more information.
15. Wireless chargers sold separately.
16. Testing conducted by Apple in August 2023 using preproduction iPhone 15 and iPhone 15 Plus units and software and accessory Apple USB-C Power Adapter (20W Model A2305). Fast-charge testing conducted with drained iPhone units. Charge time varies with settings and environmental factors; actual results will vary.
17. iPhone 15 models are activated with an eSIM and do not support a physical SIM. Use of an eSIM requires a carrier that supports eSIM and a wireless service plan (which may include restrictions on switching service providers and roaming, even after contract expiration). See your carrier for details. To learn more, visit apple.com/esim.
18. Wireless broadband recommended; fees may apply.
19. In China mainland, you can use Apple Pay on the web in Safari only on compatible iPhone and iPad models using iOS 11.2 or later.
20. Data accurate as of product launch.
21. Product recycled or renewable content is the mass of certified recycled material relative to the overall mass of the device, not including packaging or in-box accessories.
22. Carbon reductions are calculated against a baseline scenario: 1) No use of clean electricity for manufacturing or product use, beyond what is already available on the grid (based on regional emissions factors). 2) Apple's carbon intensity of key materials as of 2015 (our baseline year for our 2030 product carbon neutrality goal). Carbon intensity of materials reflects use of recycled content and production technology. 3) Apple's average mix of transportation modes (air, rail, ocean, ground) by product line across three years (fiscal years 2017 to 2019) to best capture the baseline transportation emissions of our products.
23. We estimate the percentage of electricity-related emissions in our manufacturing that is sourced from clean electricity by attributing to our carbon model clean energy procured by our suppliers in the prior fiscal year, based on the supplier manufacturing allocations at time of product launch. Included in this number is only clean electricity that Apple or its suppliers have procured as part of Apple's Supplier Clean Energy Program.
24. On a mass balance allocation.
25. Excludes trace amount of rare earth elements found outside of the magnets.
26. Efficiency performance is based on the U.S. Department of Energy [Federal Energy Conservation Standards for Battery Chargers](#).
27. Apple's Regulated Substances Specification describes Apple's restrictions on the use of certain chemical substances in materials in Apple products, accessories, manufacturing processes, and packaging used for shipping products to Apple's end-customers. Restrictions are derived from international laws or directives, regulatory agencies, eco-label requirements, environmental standards, and Apple policies. Every Apple product is free of PVC and phthalates except for AC power cords in India, Thailand (for two-prong AC power cords), and South Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.
28. Breakdown of U.S. retail packaging by weight. Adhesives, inks, and coatings are excluded from our calculations of plastic content and packaging weight.
29. Responsible sourcing of wood fiber is defined in [Apple's Responsible Fiber Specification](#). We consider wood fibers to include bamboo.
30. Trade-in values will vary based on the condition, year, and configuration of your eligible trade-in device. Not all devices are eligible for credit. You must be at least 18 years old to be eligible to trade in for credit or for an Apple Gift Card. Trade-in value may be applied toward qualifying new device purchase, or added to an Apple Gift Card. Actual value awarded is based on receipt of a qualifying device matching the description provided when estimate was made. Sales tax may be assessed on full value of a new device purchase. In-store trade-in requires presentation of a valid photo ID (local law may require saving this information). Offer may not be available in all stores, and may vary between in-store and online trade-in. Some stores may have additional requirements. Apple or its trade-in partners reserve the right to refuse or limit quantity of any trade-in transaction for any reason. More details are available from Apple's trade-in partner for trade-in and recycling of eligible devices. Restrictions and limitations may apply.
31. Program available for iPhone 15 and iPhone 15 Pro. Available to qualified customers with a credit check and eligible U.S. credit or debit card. Requires a 24-month installment loan with a 0% APR from Citizens Bank, N.A. (subject to any interest, fees, or other costs payable to the card issuer), purchase of AppleCare+ for iPhone, and iPhone activation with one of these national carriers: AT&T, Verizon, or T-Mobile. Sales tax and any applicable fees due at time of purchase. Full terms apply.

Some features may not be available for all countries or all areas. [View complete list](#).

† Apple Card Monthly Installments (ACMI) is a 0% APR payment option that is only available if you select it at checkout in the U.S. for eligible Apple products purchased at Apple Store locations, apple.com, the Apple Store app, or by calling 1-800-MY-APPLE, and is subject to credit approval and credit limit. See support.apple.com/kb/HT211204 for more information about eligible products. APR ranges may vary based on when you accepted an Apple Card. Cardholders who accept an Apple Card on and/or after August 10, 2023: Variable APRs for Apple Card, other than ACMI, range from 19.24% to 29.49% based on creditworthiness. Rates as of August 10, 2023. Existing cardholders: See your Customer Agreement for applicable rates and fee. If you buy an ACMI eligible product by choosing to pay in full with Apple Card (instead of using ACMI), that purchase is subject to the Apple Card variable APR, not 0% APR. Taxes and shipping on ACMI purchases are subject to the variable APR, not 0% APR. You'll need to select AT&T, T-Mobile, or

Verizon as your carrier when you check out. An iPhone purchased with ACMI is always unlocked, so you can switch carriers at any time. ACMI is not available for purchases made online at the following special stores: Apple Employee Purchase Plan; participating corporate Employee Purchase Programs; Apple at Work for small businesses; Government, and Veterans and Military Purchase Programs, or on refurbished devices. The last month's payment for each product will be the product's purchase price, less all other payments at the monthly payment amount. ACMI financing is subject to change at any time for any reason, including but not limited to, installment term lengths and eligible products. See support.apple.com/kb/HT211204 for information about upcoming changes to ACMI financing. See the [Apple Card Customer Agreement](#) for more information about ACMI financing.

To access and use all Apple Card features and products available only to Apple Card users, you must add Apple Card to Wallet on an iPhone or iPad that supports and has the latest version of iOS or iPadOS. Apple Card is subject to credit approval, available only for qualifying applicants in the United States, and issued by Goldman Sachs Bank USA, Salt Lake City Branch.

If you reside in the U.S. territories, please call Goldman Sachs at 877-255-5923 with questions about Apple Card.
